

The FIRST defense against contamination for the
Hospital, Pharmacy or Medical Environment

The Purus Mat is the most cost effective way to reduce the introduction of contamination. It is a visible demarcation and reminder for all personnel to observe contamination and cross contamination protocols.

Let the **Purus Mat** be your first level of defense against foot borne contamination. The Purus Mat can remove up to 99.8% of foot borne viable microbes, preventing them from cross contaminating patient environments, working surfaces or from becoming airborne.

Foot borne contamination is the most significant contributor of particles in a clean or sterile area. **The Purus Mat** has been designed for easy use before the operating environment, intensive care areas or a compounding pharmacy.

PurusMats

Multi-layered, adhesive-coated mat that effectively controls contamination, bacteria and viable microbes from foot and wheel traffic, which may reduce infection prior to entering a critical or sterile environment.

Characteristics:

- QC test data and reports available for each shipment or case.
- Low profile, numbered tabs.
- Available in 30 or 60 layers with four or eight mats/case.
- Consistent adhesive coverage ensures maximum performance of each layer.

Specifications:

	Regular Tack	High Tack
Film	Low density polyethylene	Low density polyethylene
Adhesive	Acrylic	Acrylic
Adhesive Thickness	0.3 mil. / 8 µm	0.3 mil. / 8 µm
Peel Adhesion "top"	6.5 oz. / 190g/25mm ± 40	9.25 oz. / 250g/25mm ± 40
Heat Resistance	158°F / 70° C – 48 Hours	158°F / 70° C – 48 Hours
