

HEAT SLEEVES

HEAT-RESISTANT ARM PROTECTION

When things heat up under the hood, slip on our Kevlar® Heat Sleeves to protect your arms from cuts and burns. Our Heat Sleeves are treated with Fibreshield to resist fluids, and built with 100% Kevlar® for critical heat resistance. Each 18" sleeve features thumbholes for a secure fit and is machine washable. One size fits all.

HEAT RESISTANT

100% Kevlar® construction provides critical heat resistance and cut protection.
