

AlphaTec®

ADVANCED CHEMICAL PROTECTION

58-530B / 58-535B

Chemical protection with
grip performance and comfort

MD

Medium Duty

Unrivalled combination of chemical resistance, confident grip and a comfortable inner lining

These AlphaTec® 58-530B and AlphaTec® 58-535B gloves incorporate Ansell Grip Technology™ to enable users to handle wet or oily objects with less grip force. A perfect combination of chemical resistance with grip and flexibility allowing for more controlled, confident and safer handling. This helps reduce stress and fatigue of the hand while improving productivity.

Industries

- Aerospace
- Agrochemicals
- Automotive & Transportation
- Building & Construction
- Chemical
- Machinery & Equipment
- Maintenance
- Metal Fabrication
- Mining
- Printing Industry
- Oil & Gas

Applications

- Chemical Handling
(especially caustics and solvents)
- Emergency Services
- Handling Objects Coated in Grease and Oils
- Handling Paints, Inks, Dyes, Glues and adhesives
- Maintenance

Key Features

Reliable Chemical Protection

Consistent polymer coating that is uniform and strong throughout, and helps reduce the likelihood of chemical exposure with the skin.

Confident Grip

Ansell Grip Technology™ enables users to handle wet or oily objects with less grip exertion and more control.

Superior Comfort

Availability of shorter and longer lengths ensures the right fit and comfort to accommodate precise user needs. The black acrylic liner is recommended for outdoor applications.
