

3M Science.
Applied to Life.™

**Anti-fog technology.
Applied to help workers
see clearly, longer.**

3M™ Scotchgard™ Anti-fog Coating Technology brings higher performance to safety eyewear.

Clearly better anti-fog performance.

A fogged lens can be frustrating and dangerous. Removing eyewear to wipe away fog can expose eyes to potentially dangerous workplace impact hazards and debris. The Scotchgard™ Anti-fog Coating resists fogging longer than traditional anti-fog coatings, even after washing multiple times with water.

Help workers see clearly, longer.

Scotchgard™ Anti-fog
Coating is designed for
working in challenging
situations such as:

- Hot & humid conditions.
- Indoor & outdoor work.
- Physically demanding tasks.
- Climate-controlled areas.

Scotchgard™ Anti-fog Coating is available on Solus™ 1000 Series safety eyewear. This innovative product offers:

- Range of lens colors: clear, grey, indoor/outdoor grey or amber.
- Removable temples.
- Soft nose bridge.
- Padded temples for added comfort.
- Vented, removable foam gasket to help reduce eye exposure.
- Optional elastic strap.

The science behind 3M™ Scotchgard™ Anti-fog Technology.

The facts are clear:

- Scotchgard™ Anti-fog Coating **lasts longer** than traditional anti-fog coatings,* helping to increase eyewear performance in wet and steamy environments.
- Workers may enjoy reliable, clearer sight longer, because the coating, with its active ingredient, is bonded to the lens.
- Polycarbonate lenses absorb 99.9% of UV rays.
- The coating **retains its effectiveness** for at least 25 washings with water, allowing workers to wear their eyewear longer.
- The coating **can be disinfected** with diluted bleach soaking or alcohol wipes without losing its anti-fog performance. Washing with soap and water is considered a best practice and can enhance coating durability.
- Workers can **feel confident** wearing Scotchgard™ Anti-fog coated eyewear because it meets the requirements of ANSI Z87.1 and CSA Z94.3.
- Ratings:
Z87+

* Based on 3M internal testing per EN168 test method when compared with traditional anti-fog coatings.

Get out of the fog with 3M™ Solus™ 1000 Series.
