Features Advantages Benefits

3M™ Blue Abrasives

Features, Advantages and Benefits – Abrasive construction

Features	Advantages	Benefits
Engineered ceramic mineral blend	<ul style="list-style-type: none">• Best-in-class cut rate and life	Increased efficiency and productivity
Anti-loading coating	<ul style="list-style-type: none">• Reduced loading• Improved disc life	Increased efficiency and productivity
Upgraded resins	<ul style="list-style-type: none">• Improved durability• Improved finish	Increased efficiency and productivity
C-weight premium paper	<ul style="list-style-type: none">• Improved durability• Improved surface flatness for improved cut and finish	Improved disc durability and productivity Improved finish and less re-work

Features, Advantages and Benefits – Attachment technology

Stikit™

Features	Advantages	Benefits
3M Proprietary PSA adhesive	<ul style="list-style-type: none"> Strong attachment for durability Reduced mineral transfer Easy removal from block 	Longer disc life More cutting power Easier disc/sheet changes
Nylon loop attachment	<ul style="list-style-type: none"> Strong attachment for durability, longer life 	Longer disc life
Updated laminating adhesive	<ul style="list-style-type: none"> Strong attachment for durability, longer life 	Longer disc life
Universal multi-hole pattern with alignment line	<ul style="list-style-type: none"> Removes sanded particles from sanding surface Reduced loading & clogging Improved life Improved dust extraction Easy centering, alignment and attachment of disc to BUP 	Longer abrasive life Better finish Faster disc changes Less dust in atmosphere: improved Quality/safety. Cleaner work area: less rework, fewer nibs
Laser conversion and grade etching	<ul style="list-style-type: none"> Maintains uniform abrasive construction through converting process Easier to identify grade after disc usage 	More uniform finish Better cut Faster disc changes Increased reusability saves money
Sheet roll 69mm splits	<ul style="list-style-type: none"> 1 roll, Multiple size formats Less stock holding	Improved cost savings for distribution
